

Coventry Cathedral - Knife Angel Statue

Aughton were honoured to be involved in such a special and remarkable cause in assisting both our client and Coventry City Council with the display of the “Knife Angel Statue” designed by Alfie Bradley which aims to fight against knife crime and violence in the UK.

The statue will be on show outside the iconic Coventry Cathedral.

Our team of engineers were required to procure, install and commission the lighting display by providing 24-hour mobilisation in bringing the statue to life in order to promote its message.
