ALL THE BELOW ARE ALSO EXISTING MEASURES THAT HAVE BEEN IMPLEMENTED THROUGHOUT THE COMPANY

Symptoms of COVID – 19 – If anyone becomes unwell with a new continuous cough or a high temperature in the workplace they will be sent home immediately and advised to follow the stay at home guidance, line manager will maintain regular contact with the staff member during this time.

If advised that a member of staff, public or a visitor has developed COVID-19 and where recently on our premises (including where a member of staff has visited other workplaces premises such as domestic premises the management team of the workplace will contact the Public health authority to discuss the case and identify people who have been in contact with them and will take advice on any actions or precautions that should be taken

All emergency procedures are still in operation as usual regardless of COVID-19

Further DSE risk assessments have been completed on all home working personnel

It is essential that all office space/workshop remain well ventilated whilst occupied, further to recent government advice air conditioning units are now allowed to be used within the working environment please view the link attached - <https://www.hse.gov.uk/coronavirus/equipment-and-machinery/air-conditioning-and-ventilation.htm>

All personnel who need to self-isolate will be contacted on a regular basis to ensure the wellbeing of our personnel and ascertain if the company can help in any way.

All personnel will be advised of best practice and guidance as and when information becomes available from Government sources.

It is deemed essential that all personnel on site wear a face mask when moving around any part of the work/office spaces until the end location has been reached, it is also essential that all visitors to the site wear face masks when entering the building
